ONLINE COLLECTION ANALYSIS

Follett Library Resources

Titlewise

www.titlewave.com

(Just export your MARC records and send them online. Titlewise will analyze the titles you have, compare your library to recommended collections, provide detailed reports you can use to determine what areas need to be improved, a help you find new titles that meet your needs.)

* Very thorough. I use this.

Tandem Library Books (aka Sagebrush Books)

www.tandemlibrarybooks.com

www.sagebrushcorp.com

(I received a brochure just as I was doing this handout that said the company name has changed to Tandem Library Books -. They still use BenchMarc for their collection analysis – www.tandemlibrarybooks.com/Static/BenchMARC/overview.aspx)

Quick, easy collection analysis and development. BenchMARC compares your collection to an unbiased standard developed from award winning libraries in Blue Ribbon schools. BenchMARC reports identify areas that are strong and areas requiring weeding or further development.

Bound to Stay Bound (BTSB)

www.btsb.com

Brodart

www.books.brodart.com/services/cd/collection_analysis.htm

The library provides a copy of its database with both bibliographic records and item records in MARC formatted file that includes essential data. Brodart prefers to receive files via FTP, but can accept other formats.

*A phone call with Brodart indicated to me that they don't offer this service on a regular basis.

CURRICULUM GUIDELINES

State Core Standards

Utah State Office of Education

Curriculum and Instruction
Core Curriculum

www.schools.utah.gov/curr/core

Utah Education Network

www.uen.org

(this has excellent information and resources)

*I use UEN for many things. **WOW!**

Register as an educator & receive listserve information
